

GHOST 4K

Ghost 4K is the culmination of years of action camera experience. We wanted to create the perfect camera for our riders. A camera that doesn't sacrifice on battery; shoots at incredible 4k resolution; and helps you capture your life your way.

The innovative modular design gives you the freedom to film, while our signature rotating lens and distinctive 'bullet' design will move with you, not against you.

And with our Drift Life mobile app, you're only one tap away from editing, sharing and even live streaming your adventures.
