80mm

## Small Camera. Big World.

Compact, functional and easy-to-use.

Introducing it's 8th generation of cameras, the Drift Stealth 2 is the smallest and lightest Drift camera yet. Coming in at 80 x 42.6 x 27.4 mm and only 97g, this small camera can be carried with you anywhere and everywhere, so you are always ready to capture life from your perspective. The high quality 7-element lens provides an optical 135° field of view, no longer using a digital narrow angle, so objects appear closer and sharper. The Stealth 2 films in 1080p at 30fps with its Aptina CMOS sensor producing crystal clear high definition footage. The 3hr battery life, rotatable lens and aerodynamic design make the Drift Stealth 2 a unique POV camera. With its colour coded screen and LED you always know which camera mode you are in, creating a user friendly experience.

The "Drift Connect" mobile application available for both iOS and Android devices, is the perfect tool for shot setup, remote-control recording, photo capture, playback and sharing from your mobile device.

By using the universal clip, the Stealth 2 is compatible with the full range of Drift mounts. Two must-have accessories for your Stealth 2 are the Waterproof Case and the Two-Way Remote Control. The Waterproof Case allows you to take the weather-resistant Stealth 2 under water to the depths up to 40m and can provide additional protection when filming extreme action shots. The wrist mounted Two-Way Remote Control features the same colour code as displayed on the camera, making the Stealth 2 even easier to use.

## What's Included?

The essentials...

Product Type:	Camera
Release Date:	29.07.14
UPC Code:	0610696084477
Product Name:	Stealth 2
