INTERPHONE REMOTE CONTROL

Code: REMOTECONTROLF
WIRELESS REMOTE CONTROL FOR THE
INTERPHONE

interphone INTERPHONE REMOTE CONTROL **REMOTECONTROL**

Description

To provide maximum riding safety, the INTERPHONE REMOTECONTROL has an innovative wireless remote control that mounts easily on any handlebar control handle with a diameter of 20 to 32 mm. Thanks to its convenient joystick, you can easily access all INTERPHONE functions in complete safety, without taking your hands off the handlebar. Using only a single control, the many functions offered by the INTERPHONE can be enjoyed very easily and without taking your eyes off the road, thanks also to the voice wizard (TTS) on the INTERPHONE.

The REMOTECONTROL is covered with an innovative soft-touch film, and the joystick is especially easy to use.

Tamper-proof mounting screws make the REMOTECONTROL easy to install and difficult to remove. This small powerhouse of technology, safety and functionality can easily be operated with any type of glove.

The REMOTECONTROL is compatible with the F5/F5S/F5XT/F4XT/F3XT.
