

## Product focus

Visionary material.

# RENO

*Always more... that's our motto and the Reno is the embodiment of this. Introducing a new material in Furygan jackets called 3Layers, the Reno pushes the boundaries of everyday comfort.*

### → Protection/Security

- ✓ Reno Evo is CE homologated as PPE.
- ✓ Main external material : **3Layers**, an assembly of three technical textiles that creates a warm, solid, waterproof and wind-blocking shell.
- ✓ CE approved D3O protectors for shoulders and elbows.
- ✓ The back protector pocket is compatible with D3O's "Central Back" (level 1) and "Full Back" (level 2) back protector, available as an added option.

### → Ergonomics/Comfort

- ✓ Removable and padded thermal lining featuring aluminium inserts on the chest. Mesh at armpits to ease heat dissipation. This new generation of lining is equipped with a high collar, and with additional padding on the chest, a very exposed zone to coldness.
- ✓ Internal Polymesh technical lining, waterproof, breathable, light and pleasant to wear.
- ✓ Soft, comfortable, the 3Layers does not absorb water and limits the cold transmittance that occurs by conductivity when wind hits a wet material.
- ✓ 5 pockets (3 outside including a credit card pocket on the arm and two inside)

6262-RENO EVO

SIZES : S - 4XL
