REMOVABLE RANGE IS RECCOMENDED FOR....

Riders who wants to use Interphone with different helmets..

ULTRA THIN RANGE IS RECCOMENDED FOR....

Riders who prefer to have a very thin device and they are not interested in using it with different helmets.

U-COM 4/U-COM 16 come with a separate battery. They are perfect for Intercom Ready helmets, which have a dedicated space (slot) for inserting the battery. On page 4 of this guide and on our website, you can find a list of helmets equipped with this feature. "Naked" batteries, i.e., smaller ones designed to fit into compact spaces, are available for purchase. Alternatively, the battery can still be attached to the back of the helmet in a concealed position using the bracket included in the pack.

Below is a list of Intercom helmets.

I ONLY NEED TO MAKE PHONE CALL AND LISTEN TO MUSIC

U-COM 3/U-COM 3HD

I ALSO NEED TO TALK WITH:

my passenger or a friend with motorbike
 in small group (max 4 riders)
 in large group (max 24 riders)

U-COM 3/U-COM 6R
 U-COM 7R/U-COM 4
 U-COM 8R/U-COM 16

I LOVE LISTENING TO MUSIC IN HD

U-COM 3HD/U-COM 8R/U-COM 16
 Are already equipped with HD SPEAKERS

U-COM 6R/U-COM 7R
 You can order separately
 UCOMSPEAKER40

CAN I TALK WITH MY FRIENDS WITH SENA OR SHOEI/NOLAN BT HELMET?

All **UCOM** products are 100% compatible with **Sena/Shoei/Nolan/Shubert** and can also operate with all the others intercommunication systems in the market. See on the back of this page a list of compatible brand/products.

I JUST WANT THE MOST ADVANCED AND EASY-TO-USE PRODUCT

U-COM 8R and **U-COM 16** are equipped with **MESH** technology, enabling easy, stable, and intuitive connections, along with many other advantages. In just a few seconds, the control units pair and remain connected, even if someone in the group disconnects or decides to stop.
