BIKE TO BIKE INTERCOM
INTERCOM CONFERENCE MODE: UP TO 4 BIKERS

Description

The new INTERPHONEF5MC is one of the most feature-rich device of the market for biker's communication and entertainment.

For those demanding the best!

The new INTERPHONEF5MC has a multi-device connectivity, including mobile phone, A2DP Bluetooth® stereo, FM radio with RDS, wire connectivity to iPod™/MP3 player and much more features.

The TTS full vocal menu help and easy-to-access and intuitive button operations make the INTERPHONEF5MC a perfect companion for motorcycles.

New features

- ANYCOM - Thanks to this innovative function, INTERPHONEF5MC can communicate with all intercom devices of different brands in full duplex mode (in order to use the Anycom feature, the pairing on the other unit must be done as a phone).
- TTS - MULTILINGUAL STATUS ANNOUNCEMENTS
- INTERCOM AUTO RECONNECTION - If your intercom friend goes out of range while having an intercom conversation, INTERPHONEF5MC automatically tries to reconnect the intercom.
- SONG SHARING - Rider and passenger can share same stereo music from MP3 source (via Bluetooth® or line-in).
- TWO WAY SETTING VOLUME - For more comfortable conversation in intercom mode, you can set the volume in two way
 - a) for jet helmets
 - b) for full face helmets.
- EASY PAIRING - Pairing is possible when INTERPHONEF5MC are turned on.
- NEW FM RADIO - Improved performances for FM receiver, single press to search new FM stations, long press for store them.
- AUDIO QUALITY IMPROVEMENT
