

## BLUETOOTH® COMMUNICATION KIT FOR DRIVING SCHOOLS

### General

The Bluetooth communication kit® for driving schools represents the most evolved and safest system to allow communication between the instructor in the car and motorcyclists. The driving school kit is composed of an INTERPHONECARKIT and one or several INTERPHONEF5XT for motorcyclists.

In this way, the instructor can communicate in conference with up to three motorcyclists and up to 500 m in open field depending on the configuration selected by the driving school (see configuration diagram) and in complete safety.

Code: INTERPHOCARKITEU

Code: INTERPHONEF5XT

### IN THE CAR

## interphone CAR KIT

PERFECT  
DRIVING  
LESSON

The instructor communicates externally by means of an INTERPHONECARKIT installed on the sun visor of his/her car and an external microphone. Supply is completed by a high yield external speaker positioned within the passenger compartment. Possibility of connection to the audio system of the car from AUX input.

### ON THE MOTORCYCLE

## interphone F5XT

Bluetooth®  
Bridge  
Technology 3.0

Before the lesson each motorcyclists fits an INTERPHONEF5XT and internal earphones supplied in the kit to their helmet.

THE INTERPHONEF5XT is easily installed on any type of helmet (jet, modular, integral) and ensures high audio quality and comfort while driving.
