

# SUPPORTS FOR TUBULAR HANDLEBARS

## ICASE HOLDER

### MOTORBIKE SUPPORT FOR IPHONE X

#### Description

The special supports allow you to install your smartphone on the motorbike handlebar and ensure maximum protection of the device from bumps, falls and the elements throughout the journey.

The waterproof support for iPhone X features an extremely sturdy external case and an internal shock-resistant silicone adapter ideal to protect your smartphone while travelling by motorcycle. The support bracket with safety lock can be rotated 360° and allows you to put your phone in the best position. All of the functions of the smartphone, including the touch screen, the camera and the home button, can be activated from the case without having to remove the device.
